Patient Access Program

We are **at your service:**

The Barricaid Patient Access Program is designed to work closely with your surgeon's office to manage the complexities of health plan prior authorizations and appeals. We provide you with a personalized service.

We make it **easy:**

- We verify your health plan benefits
- We obtain your prior authorization
- We seek approval for payment from your health plan
- We will monitor the timeliness of the health plan's response
- If there is a denial, we will manage the appeal process

Next **steps:**

- We require your consent to coordinate care with your health plan and surgeon's office
- Scan the QR code on your right to complete the signature form

Scan the QR code

Testimonials

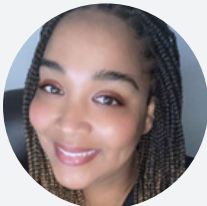

It is a pleasure to work with the Patient Access Team for our Barricaid cases. They are knowledgeable and efficient in assisting with not only Medical, but also Motor Vehicle and Work Comp prior authorizations.

Michele - Surgical Coordinator

I can't say enough about this Patient Access Team! They are bulldogs to the insurance companies but are such a helpful and knowledgeable resource for the patients. They really make any experience as easy as possible and keep you well informed of any changes you need to know about.

Eileen - Surgical Coordinator
