

# Discectomy in Lumbar Herniation: Injured Workers and Patients

An accredited continuing education activity intended for Registered Nurses, Case Managers, peri-operative nurses, central services professionals, sterile processing technicians, or other healthcare professionals who want to learn more or require knowledge and skills in low back pain and herniated discs. Attendees will have an active role in discussion and the opportunity to ask questions and answers and to share experiences.

The program is accredited for 2 continuing education (CE) units, provided the attendee follows the steps for successful course completion.
